

DANNY JURIC
PRACTICE MANAGER
NBR ARCHITECTS BRISBANE

QUALIFICATIONS: Bachelor of Architecture
Bachelor of Built Environment
Associate Diploma Civil Engineering

REGISTERED ARCHITECT: 4166

Danny Juric has practiced architecture since the mid nineties, cohesively teaming resources with creativity in the delivery of highly resolved solutions to development, corporate real estate and specialty building projects. His experience spans across commercial, residential mixed use, industrial, and infrastructure market sectors. Since completing his degrees at Queensland University of Technology, RMIT and Melbourne University, Danny has practiced in Melbourne, Sydney and Brisbane where he is a Registered Architect with the Queensland Board of Architects.

Having worked with a wide range of clients, Danny has excelled in applying this understanding to projects for some of Australia's largest companies such as National Australia Bank, Multiplex Developments, Australand, Property Solutions, and Queensland Rail. At NBR Architects, Danny manages a team of designers delivering effective solutions to complex briefs. Design is realised through collaboration and intuitive understanding of the client's business in achieving successful architecture. Danny has developed expertise knowledge on the procurement of Transit Oriented Developments (TOD) delivering large scale mixed-use projects, and rail infrastructure for the South East Queensland Regional Plan. These projects involved an urban design which considerations promote the fusion of architecture, science and economic feasibility.
