

PAMELA GEORGESON
INTERIORS

QUALIFICATIONS: Diploma of Interior Technology, Southbank Institute of Technology

Since joining the practice in 2007 Pamela Georgeson has developed extensive experience in the areas of design, documentation and delivery through her involvement in all but a few NBRS projects. Pamela has a proven ability to engage with the broader project aspirations including budget, program and architectural vision, while bringing her own creativities to a projects space, finish and fit out. Her project and creative skills are complimented by proficiency in Revit, AutoCad, Adobe and Sketch Up software packages, allowing her to clearly and accurately present the creative vision of our projects from conceptualisation through to delivery.

Pamela extends her creative influence on projects and the practice by providing direction to our client/stakeholder presentation, marketing material, and submissions. NBRS' collaborative approach to design sees us workshoping and engaging with stakeholders on each and every project, to which Pamela's skill in capturing aspirations and briefs is essential.

Pamela's is the "all rounder" at NBRS having a hand in all aspects of our practice and its creative vision. Her smart design practices and technical knowledge leaves her in demand and is an asset in mentoring architects and junior staff members in the value of interior design.

PROJECT EXPERIENCE

COMMERCIAL + OTHER

Central Queensland University - Mackay Library
Oldmac Toyota, New Car Showroom, Springwood, Queensland
Oldmac Mazda - Used Car Showroom, Springwood, Queensland
